CONTENTS

		PAGE
Persistence of various formulations of carbaryl on cotton leaves and their translocation into cotton seeds.	S. S. SHARMA, P. R. YADAV and A. P. JAYASWAL	1
Persistence of different insecticides against pea leaf-miner, *Phytomyza articornis* Meigen.	S. VERMA and A. K. DIKSHIT ..	4
Residues of endosulfan in lima-bean pods.	M. D. DETHE, U. M. RAUT and M. V. KADAM	7
Residues of some organophosphorous insecticides on peach fruits at harvest.	N. P. KASHYAP and S. F. HAMEED	10
Note on regression anaylsis of genotype × environment interaction in rice.	R. K. MAHAJAN and A. V. RAO	14
Note on a new interracial hybrid in *Gossypium hirsutum* Linn.	JAGMAIL SINGH and P. K. VERMA	16
Note on effect of selection pressure for yield components and early maturity in an intervarietal cross of upland cotton.	S. B. SHARMA and O. P. GOVILA	18
Note on the use of okra-leaf male-sterile line in the production of hybrid cotton.	K. N. GURURAJAN and K. SRINIVASAN	20
Note on genetic variability in quantitative characters of cowpea in the M_3 generation.	A. D. LAWHALE	22
Note on the inheritance of some quantitative characters in a cross of Indian mustard.	S. K. CHAUDHARY and S. K. SHARMA	23
Note on the effect of row spacing and degree of defoliation on yield and quality of sugarcane.	U. B. NANDIHALLI and J. N. SINGH	26
Note on a narrow-bracteole mutant in *Gossypium hirsutum* Linn.	S. F. A. AMALRAJ	27
Note on useful heterosis in upland cotton.	PHUNDAN SINGH	29

Note on emergence of cotton seedlings as influenced by condition of crust at the soil surface and number of seeds per hill.	G. S. BRAR, NIRMAL K. SEKHON and N. T. SINGH	32
Note on soil potassium forms in relation to agro-climatic zones of Kangra Valley, Himachal Pradesh.	T. S. VERMA, S. D. VERMA, R. D. SOOD and B. R. TRIPATHI ..	34
Note on broad interpretation and application of soil-test information with special reference to soil pH as related to the yield of tea.	B. C. MARWAHA and H. S. YADUVANSHI	37
Note on the occurrence of endotrophic mycorrhiza in water-hyacinth and its significance in agriculture.	M. N. VENKATARAMANAN, H. D. SINGH and J. N. BARUAH ..	39
Note on the pathogenicity and on relative susceptibility of greengram varieties to *Rotylenchulus reniformis*.	D. C. GUPTA and B. S. YADAV..	41
Note on groundnut as a new host of *Achaea janata* Linn. (Lepidoptera: Noctuidae) at Dharwad, Karnataka.	K. S. PANCHABHAVI and S. N. HOLIHOSUR	43
Note on *Cydia* (= *Laspeyresia*) *ptychora* Meyrick (Lepidoptera : Torticidae) as a new pest of groundnut in Karnataka.	K. S. PANCHABHAVI ..	44
Note on the incidence of top-borer (*Tryporza nivella* Fabr.) and pink-borer (*Sesamia inference* Wlk.) on sugarcane grown in companion cropping pattern.	S. C. MISRA and B. S. HORA ..	45
Note on the biochemical changes induced by *Polyscias guilfoylei* Bailey (Araliaceae) in *Dysdercus cingulatus* Fabricius (Hemiptera : Pyrrhocoridae).	B. RAJENDRAN and M. GOPALAN	46
Note on the effect of cultural practices on the incidence of insect pests of rice.	N. VENUGOPAL RAO, V. L. V. PRASADA RAO, B. H. KRISHNAMURTHY RAO and P. SUBBARAMI REDDY	48
Note on the use of neem kernel for the protection of dew-gram against *Amsacta moorei* Butler.	R. C. SAXENA	51
Interrelationships among some yield and quality characters in bread wheat.	RAJNI RAINA, G. S. SHARMA and R. B. SINGH	53

Genetic architecture of yield and components of yield in *durum* wheat.	R. B. Srivastava, R. S. Paroda, O. P. Luthra and K. C. Goyal	58
Evaluation of rice cultures for yield and tolerance to submergence in medium lowlands of Tripura.	S. Sardana, A. K. Ghosh and A. N. Asthana	63
Genetic architecture of yield and its component traits in Indian colza.	Sudhakar P. Singh, A. N. Srivastava and R. P. Katiyar	67
Combining ability in Indian rapeseed.	Rajendra Prasad and Basudeo Singh	74
Extent of perfect and fertilized florets in safflower.	M. Ramachandram and J. V. Goud	78
Path analysis of yield and protein content in chickpea.	P. S. Tyagi, B. D. Singh, H. K. Jaiswal, A. Agnihotri and R. M. Singh	81
Organogenesis in callus cultures of chickpea.	R. P. Singh, B. D. Singh, H. K. Jaiswal, R. M. Singh and R. B. Singh	86
Combining ability of new male sterile lines in *Gossypium hirsutum* Linn.	K. Srinivasan and K. N. Gururajan	91
Gene effects for total alkaloids in three crosses of *Datura innoxia*.	N. R. Bhagat, S. P. Mital and M. W. Hardas	96
Effect of 4-chlorophenoxyacetic acid and benzyl adenine on berry drop, yield and quality of grape cultivar 'Beauty Seedless'.	Suneel Sharma and P. C. Jindal	98
Variability in leaf elongation rate and reduction in green leaf length in sorghum genotypes under moisture stress and on alleviation of stress.	G. Parameswara and K. S. Krishnasastry	102
Effect of the season of sowing on the productivity of sunflower.	M. L. Chhabra, T. P. Yadava and S. C. Gupta	107
Intercropping of rainfed maize with different legumes.	Babooji Gangwar and G. S. Kalra	113
Growing greengram with minimum tillage.	S. A. Khan and B. N. Chatterjee	117
Development of Inceptisols and Alfisols from granite gneiss rocks of Karnataka.	D. Krishna Murthy, A. E. Vasudeva Rao and N. G. Raghu Mohan	120

Antibiotic effects of some resistant lines of sorghum on post-larval development of *Chilo partellus* (Swinhoe).	G. LAL and T. R. SUKHANI ..	127
Performance of aldicarb and its metabolites against cotton aphid, *Aphis gossypii* Glov.	A. REGUPATHY and T. R. SUBRAMANIAM	130
Persistence of residues of fenitrothion in or on okra.	S. V. SARODE and RATTAN LAL	135
Size and shape of experimental plots in cabbage experiments.	S. R. BISWAS, P. R. RAMACHANDER and A. GUPTA ..	139
Genetic architecture of some yield contributing traits in triticale.	VEENA AGARWAL and ZIAUDDIN AHMAD	145
Phenotypic stability for yield in fingermillet.	K. N. MALLANNA, K. MALLIKARJUNARADHYA, M. V. CHANNABYRE GOWDA and R. UMA SHANKER	151
Components of genetic variation for yield and its attributes in a diallel cross of yellow-seeded Indian colza.	S. S. DUHOON, S. CHANDRA, A. K. BASU and O. P. MAKHIJA	154
Diversity in sweet-pepper.	H. S. GILL, P. C. THAKUR, B. M. ASAWA and T. C. THAKUR ..	159
Physico-chemical characteristics of pea varieties as affected during steeping preservation.	VIJAY SETHI, RAM PHAL and J. C. ANAND	162
Effects of N and P rates and plant densities on the yield of rainfed sesame.	H. S. DAULAY and K. C. SINGH	166
Utility of frequency distribution of moisture adequacy index in the selection of crops for areas with marginal rainfall.	U. S. VICTOR, C. V. S. SASTRY and P. S. N. SASTRY ..	170
Dissipation of fenitrothion residues on cauliflower.	S. V. SARODE and RATTAN LAL	173
Composite model for forecasting rice yield.	RANJANA AGRAWAL and R. C. JAIN	177
Analysis of crop weather for an early forecast of groundnut yield in Junagadh district of Gujarat.	T. J. KHATRI, R. M. PATEL and P. D. MISTRY	182
Note on the correlation and path-coefficient analysis of some physico-chemical characters in rice.	J. S. CHAUHAN and J. S. NANDA	186

Note on heterosis in sesame.	S. R. SHRIVAS and S. P. SINGH ..	188
Note on gamma-ray-induced variability for flowering and chlorophyll mutations in blackgram.	S. K. KUNDU and D. P. SINGH	190
Note on field evaluation of different genotypes of summer squash against vegetable marrow mosaic virus.	O. P. SHARMA and B. R. SHARMA	192
Note on combining ability in tomato.	K. R. M. SWAMY and P. J. MATHAI	193
Note on improvement in establishment of transplanted cashew air-layers by preplanting treatment.	S. RAJAN, H. V. PATTENSHETI and U. V. SULLADMATH ..	196
Note on potassium : sodium ratio in cassava grown under salt and moisture stress.	P. INDIRA and T. RAMANUJAM ..	198
Note on organic and inorganic constituents in *Cymbopogon martinii* (Roxb.) Wats. during different stages of growth.	ANJALI B. SABALE	199
Note on the response of legumes to micronutrients in temperate soil.	A. V. RAO and R. L. SHARMA ..	201
Note on the antifeedant activity of *Parthenium hysterophorus* Linn. on *Spodoptera litura* Fabricius (Lepidoptera : Noctuidae).	G. GAJENDRAN and M. GOPALAN	203
Note on the use of some insecticides against *Bagrada cruciferarum* Kirk.	U. K. PANDEY, G. S. VERMA, CHANDRA LEKHA and A. K. SINGH	205
A method of scoring yield status for selecting rice varieties.	G. R. DAS	207
Factor analysis in ninety diversified strains of triticale.	A. R. SAWANT, B. M. ASAWA and G. S. RAWAT	209
Combining ability for toxic constituents in forage sorghum.	K. S. BOORA and G. P. LODHI ...	211
Genetic analysis of some quantitative characters in pearlmillet.	C. S. TYAGI, S. LAL and R. R. KARWASRA	215
Combining ability analysis for oil content in Indian mustard.	PARKASH KUMAR, T. P. YADAVA and KAMAL DHAWAN ..	219

Stability parameters for hybrid castor.	HIRA CHAND, H. J. JOSHI, S. J. DHOLARIA and P. K. PATEL ..	222
Genetics of tolerance in okra seedlings to damage by the cotton jassid, *Amrasca biguttula biguttula* (Ishida).	M. S. MAHAL and BALRAJ SINGH	225
Relative susceptibility of maize germplasms to red flour beetle, *Tribolium castaneum* Herbst.	B. P. KHARE, SUBHASH CHANDRA and V. K. SHARMA	228
Effect of N, P and K on growth, yield, fruit quality and leaf composition of sapota.	S. M. DURRANI, V. K. PATIL and B. A. KADAM	231
Effect of pre-harvest calcium nitrate spray on peach on the storage life of fruits.	B. P. SINGH, O. P. GUPTA and K. S. CHAUHAN	235
Nitrogen need of *Plantago ovata* Forsk. in relation to the available nitrogen in soil.	N. K. KALYANASUNDARAM, P. B. PATEL and K. C. DALAL ..	240
Note on the genetic analysis of yield component characters in 'Moirangphou' × 'Jaya' rice.	THOUNAOJAM BHAGIRATH SINGH and ARIBAM CHAOBA SHARMA ..	243
Note on variation for pod setting in cowpea crosses.	K. VIRUPAKSHAPPA, A. R. G. RANGANATHA, G. SHIVASHANKAR and CHIKKADEVAIAH ..	244
Note on line × tester analysis in tomato.	S. T. BORIKAR, P. R. CHOPDE and V. G. MAKNE	246
Note on frequency and spectrum of chlorophyll mutations in pigeonpea with special reference to biological damage.	S. N. CHATURVEDI, R. P. SHARMA, MAHENDRA SINGH and S. P. PALIWAL	248
Note on the physiological effects on the growth and reproduction of silkworm fed on mulberry leaves soaked in potassium iodide.	A. C. MAJUMDAR	250
Note on the effects of HCl- and H_2SO_4-acidulated rock phosphates in relation to the time of application to rice.	R. N. DASH, S. K. MOHANTY and S. PATNAIK	252
Note on evaluation of leaf analysis as a guide to the nitrogen fertilization of Indian mustard.	M. S. BRAR, C. L. ARORA and P. N. TAKKAR	255

Note on the effects of different levels of calcium and potassium on clonal tea plants.	G. S. CHAMUAH and S. K. DEY	257
Note on balance sheet of nitrogen in a long-term fertilizer experiment at Bhubaneswar.	D. PANDA, M. PANDA and N. PANDA	260
Note on fungicidal control of coriander powdery mildew.	K. SITARAMA RAJU, G. SRINIVASA RAO, T. SRIRAMA RAO and M. KARUNAKARA BABU ..	262
Note on insecticidal properties of some plants against *Bagrada cruciferarum* Kirk. (Hemiptera : Pentatomidae).	G. S. VERMA, U. K. PANDEY and MAMTA PANDEY	263
Note on the toxicity of insecticides against the grubs of lucerne weevil.	S. V. DHAMDHERE, J. Y. DEOLE, O. P. SINGH, U. S. MISRA and K. N. KAPOOR	265
Note on the ovipositional behaviour of pigeonpea podfly, *Melanogromyza obtusa* (Malloch).	O. P. SINGH, K. N. KAPOOR, S. V. DHAMDHERE and U. S. MISRA	267
Combining ability and heterosis in components of grain yield and panicle geometry in rice.	S. P. SINGH and M. N. SHRIVASTAVA	271
Selection parameters for some developmental and component traits in durum wheat.	R. R. GUPTA and ZIAUDDIN AHMAD	278
Inheritance of harvest index and span of maturity in pearlmillet.	R. K. BAJAJ and P. S. PHUL ..	285
Path coefficients and selection indices in greengram.	B. P. S. MALIK, V. P. SINGH, B. D. CHAUDHARY and R. K. CHOWDHARY	288
Stability and adaptation in soybean.	S. R. KHURANA and P.T. YADAVA	292
Genetics of seed yield and its components in Indian colza.	K. S. LABANA and S. K. JINDAL	297
Relation between growth pattern, endogenous growth hormones and metabolities in the developing fruit of 'Sharbati' peach.	S. S. SANDHU and B. S. DHILLON	302

Morphological characters of some important cultivars of olive grown in Himachal Pradesh.	M. R. SHARMA	311
Effect of farmyard manure on the uptake of phorate by some vegetables in loamy-sand soils.	V. K. R. SHINDE and C. P. S. YADAVA	315
Evaluation of percolation and leaching loss of nitrogen applied through urea in a vertisol.	J. S. SHINDE, S. B. VARADE, G. RAMKRISHNARAO and P. R. BHARAMBE	319
Inheritance of slow development of brown rust in wheat.	S. KUMAR, R. M. SINGH and R. B. SINGH	324
Suitability of stable bleaching powder and other chemical formulations for the control of bacterial leaf spot of greengram.	LUXMI CHAND SAINI and R. D. PARASHAR	330
Persistence of carbaryl in and on Virginia tobacco.	K. P. SINGH, S. Y. PANDEY and L. RAO	335
Note on adaptability of some Yugoslav maize hybrids in Bihar.	T. P. SINGH, S. A. AKHTER, S. K. PRASAD and M. D. JHA ..	339
Note on screening of germplasm of maize against *Drechslera maydis* (=*Helminthosporium maydis*).	S. C. SHARMA, A. S. KHEHRA, V. K. SAXENA, B. S. DHILLON and N. S. MALHI	341
Note on screening of gramplasm of pigeonpea for resistance to podfly (*Melanogromyza obtusa* Mall.).	A. R. REDDY, S. VENKATESWARLU and O. N. SINGH	342
Note on the chemical composition of some groundnut strains.	S. K. GUPTA, KAMAL DHAWAN, PARKASH KUMAR and T. P. YADAVA	343
Note on the effect of pre-monsoon sowing on the crop stand and yield of rainfed sorghum.	C. PERIYATHAMBI and SP. PALANIAPPAN	345
Note on pearlmillet as a new host for *Heliothis armigera* Hubner in Madhya Pradesh.	O. P. SINGH, S. V. DHAMDHERE, K. N. KAPOOR, U. S. MISRA and J. Y. DEOLE	346
Variability and associations of flag-leaf area and other traits in wheat.	A. K. JOSHI, G. S. SHARMA and RAM DHARI	351
Combining ability in bread wheat.	DALVIR SINGH, R. B. SRIVASTAVA and V. P. SINGH	355

Analysis of combining ability in durum wheat.	S. P. SINGH, V. N. TIWARI, Y. MISHRA and M. L. TAWAR ..	359
Diallel-cross analysis for quantitative traits in mutant pea types.	V. G. NARSINGHANI, V. S. N. RAO and S. P. SINGH ..	364
Preliminary assessment of some hand-pollinated progenies of rubber in Nigeria.	J. E. ALIKA	367
Induction of early bud sprouting in *Dioscorea deltoidea* Wall.	B. K. BHAT and B. B. BINDROO	370
Response of transplanted rice to different plant populations under limited supply of nitrogen fertilizer.	PYARE LAL, G. N. MISHRA, R. C. GAUTAM and P. S. BISHT ..	372
Efficiency of water use and applied nitrogen in barley grown with stored soil moisture, supplemental irrigation and nitrogen application.	S. S. CHEEMA, A. S. WALIA and HARISH KUNDRA	378
Fertilizer use by *Nigella sativa* Linn. in West Bengal.	S. A. KHAN and B. N. CHATTERJEE	384
Influence of potassium and magnesium on yield and some physical characteristics in cigar-wrapper tobacco.	K. D. SINGH and B. L. SINGH ..	388
Biology of brinjal shoot- and fruit-borer, *Leucinodes orbonalis* Guen.	MOHD ABDUL ALLAM, P. KAMESWARA RAO and B. H. KRISHNAMURTHY RAO	391
Note on estimation of leaf area in linseed.	P. K. DIXIT, C. S. DUBEY and J. P. SHARMA	396
Note on clonal multiplication of ginger *in vitro*.	S. K. PILLAI and K. B. KUMAR	397
Note on efficacy of gamma-rays in radiosensitive and radio-resistant varieties of rice.	J. P. LAL and A. K. RICHHARIA	400
Note on induced variability in upland cotton by one and two cycles of gamma radiation.	A. K. BASU	402
Note on the effect of selection for quantitative traits in the M_3 progenies of soybean.	HARI HAR RAM, PUSHPENDRA, V. D. VERMA and KAMENDRA SINGH	404

Note on the performance of some chickpea varieties grown on chloride-dominant saline soils.	S. K. SHARMA, H. R. MANCHANDA and J. P. SINGH ..	405
Note on the ovicidal action of some insecticides on the eggs of the spotted bollworms, *Earias* spp. (Lepidoptera : Noctuidae).	O. P. SINGH, S. V. DHAMDHERE and U. S. MISRA	408
Note on yield and economics of pearlmillet as affected by sowing dates and plant densities.	R. S. DHANKAR, D. S. MALIK, R. S. BALYAN and P. S. TOMER..	409
Note on residues of endosulfan in shade-cured Virginia and *bidi* tobacco.	T. S. KATHPAL, P. R. YADAV and ZILE SINGH	411
Trends in energy usage, energy-food conversion and relative energy efficiency of primary food crops in selected countries.	G. L. BLIGHT, S. J. JADHAV, W. F. CAMPBELL and D. K. SALUNKHE	417
Character correlations and selection indices in F_2 population of wheat.	S. P. SINGH, A. A. PIANCHI and V. G. NARSINGHANI ..	424
Character association and path analysis in winter sorghum.	T. G. SHAHANE and S. T. BORIKAR	429
Genetic variability and heritability for morpho-physiological attributes in groundnut.	HARI SINGH, A. K. YADAV, T. P. YADAVA and M. L. CHHABRA ..	432
Variations and correlations in oil content and fatty acid composition of sesame.	GURDIP S. BRAR	434
Gene effects for some quantitative characters in sunflower.	R. P. DUA and T. P. YADAVA ..	439
Heterosis and combining ability in egg-plant.	J. DIXIT, R. D. BHUTANI and B. S. DUDI	444
Genetics of tryptophan and methionine content in pea.	K. R. GUPTA, B. S. DAHIYA, SARLA POPLI, SANTOSH DHILLON and KULDIP SINGH DHINDSA ..	448
Yield and pattern of sugar accumulation in sugarcane planted in autumn and spring.	R. L. YADAV and R. K. SHARMA	452
Use of mulch for conserving moisture and increasing the yield of sorghum in dryland.	V. S. MANE and A. K. SHINGTE ..	458

Residues of endosulfan on Indian colza.	A. K. DIKSHIT, S. K. HANDA, M. D. AWASTHI and S. VERMA ..	463
Size and shape of plots and blocks for experiments with oat grown for fodder.	D. P. HANDA, P. R. SREENATH, J. A. SASTRY, S. K. RAJPAL and N. P. SHUKLA	466
Note on the salt tolerance of some rice varieties of Andhra Pradesh during germination and early seedling growth.	P. JANARDHAN REDDY and K. VAIDYANATH ..	472
Note on the reaction of some promising mutants of upland cotton to the attack of bollworms.	S. S. MEHETRE and M. V. THOMBRE	474
Noth on genetic information and inheritance of total soluble solids in tomato.	R. R. SINGH and H. N. SINGH ..	476
Note on irrigation requirement of linseed for seed yield.	K. L. KINRA and B. L. KUSHWAHA	478
Note on a new record of the Lygaeid bug, *Nysius inconspicuous* Distant (Hemiptera : Lygaeidae) on sunflower.	G. LOGISWARAN, S. MADHAVA RAO and G. VASUDEVAN ..	480
Gene action for quality components in rice.	N. B. SINGH and H. G. SINGH ..	485
Association analysis in three maturing groups of kodo-millet.	S. N. P. VERMA and R. P. SINGH	488
Genetic divergence in chickpea.	K. P. SINGH, S. N. KAKAR, V. P. SINGH and B. D. CHAUDHARY ..	492
Gene mechanism for inheritance of some yield-contributing characters in field pea.	B. P. SINGH and B. S. JOSHI ..	495
Interaction between maize and cowpea sown simultaneously and at intervals in a forest zone of Nigeria.	S. U. REMISON	500
Seasonal variations in salt and water-content profiles in shallow and saline ground water-table.	R. K. GUPTA and B. K. KHOSLA	506
Response of rice varieties to zinc.	K. PRASAD, R. B. SINHA and B. P. SINGH	511
Biogass production from different animal excreta.	SUSHIL KUMAR and T. D. BISWAS	513

Effect of fungicides on the development of downy mildew and white rust of radish.	S. R. SHARMA and H. S. SOHI ..	521
Ecology of *Xanthomonas campestris* pv. *oryzae*, the incitant of bacterial blight of rice.	V. S. THRI MURTY, S. DEVADATH and C. SESHAGIRI RAO ..	524
Estimation of infection rate of leaf-scald of rice caused by *Rhynchosporium oryzae*.	S. AMU SINGH and P. K. SEN GUPTA	529
Organochlorine insecticide residues in vegetable samples from Hissar market.	B. DAHIYA and R. CHAUHAN ..	533
Chemical preservation of vegetables at room and low temperatures.	VIJAY SETHI and J. C. ANAND ..	536
Note on correlations among yield components and their effect on yield in four true-breeding rice crosses grown under different doses of nitrogen fertilization.	B. SASMAL	540
Note on the contribution of different photosynthetic sites to grain yield in sorghum.	N. K. SRINIVASA RAO and S. P. SINGH	543
Note on factors influencing the cooking time of soybean.	S. P. SINGH, S. K. RAO, S. M. SHARMA and A. K. GUPTA ..	545
Note on the effect of hydroprene on pupal-web formation by *Corcyra cephalonica* Stainton (Lepidoptera : Galleriidae).	T. N. SAMUI, D. C. DEB and S. CHAKRAVORTY	547
Note on the estimation of oxydemeton methyl residue in cauliflower.	S. M. KATIHA and AMIT NATH..	549
Genetic variability, heritability and genetic advance in early segregating generations of spring wheat.	A. K. SINGH, H. G. SINGH, ZIAUDDIN AHMAD and S. A. KERKHI	551
Combining ability in single and three-way crosses of sorghum.	B. R. KIDE, N. L. BHALE and S. T. BORIKAR	554
Path coefficients and selection indices in pigeonpea.	S. P. SINGH, R. K. REDDY and V. G. NARSINGHANI ..	558
Heterosis for seed yield and oil content in safflower.	M. RAMACHANDRAM and J. V. GOUD	561

Manifestation of heterosis in exotic × indigenous crosses of opium poppy.	H. C. SAINI and U. S. KAICKER	564
Heterosis and combining ability for quality traits in forage sorghum.	K. S. BOORA and G. P. LODHI ..	569
Leaf-area constants for cotton, greengram, blackgram and groundnut.	V. G. MUSANDE, V. D. SONDGE, B. N. CHAVAN and D. N. BORULKAR	573
Effect of irrigation on the pod yield of groundnut.	G. G. SHINDE and K. R. PAWAR	576
Response of late-sown cotton to levels and times of nitrogen application in Nigeria.	VIJAY KUMAR, V. B. OGUNLELA and S. MUSTAFA	578
Growth analysis of turmeric as a sole crop and in mixture with other crops.	A. L. KUNDU and B. N. CHATTERJEE	584
Application of principle of game theory to fertilizer experiment on Coorg mandarin.	P. R. RAMACHANDER, M. G. BOPAIAH and K. C. SRIVASTAVA	589
Effect of different levels of bicarbonates alone and in combination with carbonates in irrigation waters on the growth, mineral nutrition and quality of barley grown in sand culture.	G. L. MALIWAL and K. V. PALIWAL	593
Evaluation of long-term cultural practices in relation to soil-chemical properties in Coorg mandarin cultivation.	S. C. KOTUR, K. C. SRIVASTAVA and M. T. SUBBAIAH ..	598
Quantitative determination of resistance to powdery and downy mildews in muskmelon.	K. S. AMIN, B. A. ULLASA and H. S. SOHI	601
Note on varietal response of rice to mutations induced by gamma-rays.	J. P. LAL and A. K. RICHHARIA ..	605
Note on the effect of gamma irradiation on the uptake of nutrients and yield of wheat.	N. M. MISRA and AVIJIT SEN ..	607
Note on the correlations in quantitative characters in an interspecific cross of soybean.	S. S. MALIK and B. B. SINGH ..	608
Note on line × tester analysis in castor.	A. SINGH and A. N. SRIVASTAVA	610

Note on the association of seed oil content with hull, and kernel and seed sizes of safflower.	P. B. SANGALE, S. D. PAGAR and S. Y. DAFTARDAR	613
Note on the relationship between performance *per se* and general combining ability of parents in eggplant.	S. N. SINGH and M. H. HAZARIKA	614
Note on the effect of gypsum levels on the boron content of soil and its uptake by five forage grasses in a highly sodic soil.	ASHOK KUMAR and I. P. ABROL	615
Note on pathogenic variability among *Xanthomonas oryzae* isolates of north-west India.	J. C. DURGAPAL	618
Note on irrigation schedule and development of charcoal rot incited by *Macrophomina phaseoli* (Maubl.) Ashby in sorghum.	T. GANGA NAGESHWAR RAO and K. A. BALASUBRAMANIAN ..	621
Stability of performance of some released varieties and promising cultures of rice.	N. D. DESAI, M. D. KUKADIA M. R. PATEL and R. B. SARVAIYA	627
Genetics of harvest index, grain yield and biological yield of pearlmillet.	R. L. KAPOOR, H. P. YADAV, P. SINGH, I. S. KHAIRWAL and B. N. DAHIYA	630
Components of genetic variation in Indian mustard.	A. B. SINGH, Y. S. CHAUHAN and P. SINGH	634
Reciprocal differences for yield component characters in the F_2 populations of cowpea.	A. SATYANARAYANA, P. R. RAMACHANDER and R. RAJENDRAN	639
Discriminant function analysis for cane-yield attributes in sugarcane.	M. S. PUNIA, R. S. HOODA and R. S. PARODA	643
Field reaction of tossa jute germplasm to root-rot disease.	NAMITA MANDAL, D. P. SINGH and D. SOM	646
Effect of *para*-chlorophenoxy acetic acid, boron, copper, molybdenum and zinc on the fruit quality of tomato varieties in summer and the rainy season.	S. K. ARORA, M. L. PANDITA and KIRTI SINGH	648
Effect of leaf-pose and shade on the yield of cultivated tea.	D. N. BARUA and P. C. SARMA..	653

Intercropping greengram and groundnut with rice and fingermillet in the rainy season and the feasibility of a second crop in winter on rainfed uplands of coastal Orissa.	M. V. Rao, K. P. Jha, B. T. S. Moorthy and B. K. Mandal ..	657
Effect of summer grain and fodder legumes grown pure and mixed with fodder maize on the fertilizer need of rainy-season maize.	A. Singh, I. P. S. Ahlawat and C. S. Saraf	665
N, P and K requirements of two-row barley.	B. N. Misra, B. S. Verma and K. N. Singh	669
Effect of compost enriched with Mussoorie rock phosphate on crop yield.	M. M. Mishra, K. K. Kapoor and K. S. Yadav	674
Cross-protection against tristeza virus on budded acid lime.	K. Balaraman	679
Influence of cotton phenology on incidence of the pink bollworm, *Pectinophora gossypiella* (Saunders) in squares.	Joginder Singh and A. S. Sidhu	683
Comparative efficacy of some insecticides against galerucid beetle, *Madurasia obscurella* Jacoby, infesting greengram.	H. N. Vyas and H. P. Saxena ..	689
Capital misallocation and requirements in adoption of package of practices in the cultivation of vegetables.	K. V. Subrahmanyam ..	693
Note on the estimates of heterosis for nine quantitative characters in rice.	B. K. Mandal	699
Note on the association of seed-filling parameters with other characters in blackgram.	P. R. Chitnis and B. M. Jamadagni	700
Note on the effect of gibberellic acid on some dwarf and tall varieties of castor.	Prasanna Athma, T. Aruna Reddy and Tummala P. Reddy	702
Note on accumulation of dry matter and nutrients in summer-grown groundnut.	M. S. Patel and N. M. Jalawadia	704
Note on the relationship between seedling-handedness and root and nodule characters in greengram and blackgram.	M. Madhusudana Rao and Bir Bahadur	706

Combining ability for grain yield and its components in sorghum.	R. H. PATEL, K. B. DESAI and A. R. DABHOLKAR	713
Genetic analysis of protein content in pearlmillet.	C. S. TYAGI and R. S. PARODA ..	718
Variability and combining ability in the F_2 population of a diallel set in linseed.	SURESH KUMAR and B. P. S. CHAUHAN	723
Heterosis and combining ability for yield and its components in chickpea.	R. B. DESHMUKH and D. G. BHAPKAR	728
Genetic architecture of yield and yield components in pea.	S. VENKATESWARLU and R. M. SINGH	732
Selection index in sunflower.	S. K. NASKAR, M. GHOSH and P. K. BHOWMIK	736
Inheritance of some quantitative characters in safflower.	V. RANGA RAO	738
Model plant architecture through association and path-coefficient analysis in opium poppy.	H. C. SAINI and U. S. KAICKER	744
Defoliation and compensatory mechanism in sorghum.	N. K. SRINIVASA RAO and S. P. SINGH	748
Relationship of characters contributing to yield in transplanted, short-statured rice.	ASHA KAUSHIK and J. P. PATEL..	750
Effect of application of gypsum and zinc sulphate to groundnut in alfisols.	RAJAT DE, L. G. GIRI RAO, Y. YOGESWARA RAO and MOHD IKRAMULLAH	754
Chemical weed control in greengram and clusterbean.	S. H. DAULAY and K. C. SINGH	758
Maintenance of *Orobanche cernua* on brinjal plants.	R. S. N. RAO, B. G. JOSHI and C. B. SARMA	764
Variability in tannin and protein contents in fruiting parts in relation to the incidence of pink bollworm in cotton.	S. C. CHAKRAVORTY, A. K. BASU and V. M. SAHNI	767
Effect of insecticides on the resurgence of two spotted spider mites, *Tetranychus telarius* Linn., in brinjal.	C. B. PATEL, A. H. SHAH and S. H. PATEL	774

Aldicarb residues in red chillies.	K. P. SINGH, S. Y. PANDEY and S. SINGH	776
Damage by rose-ringed parakeet and some other animal pests to almond at Ludhiana, Punjab.	P. S. SANDHU and MANJIT S. DHINDSA	779
Note on diallel-cross analysis of harvest index and its components in spring wheat.	S. K. SHARMA and R. K. SINGH	782
Note on anthocyanin pigmentation in American and Asiatic cottons.	V. V. SINGH and A. K. SINGH ..	783
Note on shortening of juvenile phase in *Ricinus communis* with 2-chloroethanephosphonic acid and ethyl hydrogen-1-propyl phosphonate.	MARY VARKEY and R. K. NIGAM	786
Note on path analysis in sorghum.	T. G. SHAHANE and S. T. BORIKAR	788
Note on multiple correlation and regression studies in cauliflower.	R. P. SHARMA, K. S. PARASHAR, R. R. PATIL and MAHABIR PARSHAD	789
Note on reactions of *Nicotiana* species and varieties to important diseases in India.	K. NAGARAJAN and T. S. N. REDDY	791
Note on the toxicity of newer insecticides against the adult weevils of *Mylloce-rus undecimpustulatus maculosus* Desb. infesting hybrid sorghum in Madhya Pradesh.	O. P. SINGH, S. I. ALI, U. C. SINGH and U. S. MISRA ..	796
Analysis of some quantitative characters from all possible reciprocal crosses between a set of parental lines of wheat.	O. I. JOARDER, S. N. ISLAM, M. M. UDDIN and A. M. EUNUS	801
Combining ability variances in partial diallel crosses for yield traits in wheat.	SUBEDAR SINGH	809
Variability and associations of coleoptile length and other traits in triticale.	A. KUMAR, P. KUMAR, S. C. MISRA and B. P. S. CHAUHAN ..	812
Inheritance and genetic association of a few qualitative characters in 'IS 8744' × 'IS 887' sorghum.	B. Y. KULLAISWAMY and J. V. GOUD	815

Heterosis in single, three-way and double-cross hybrids of sorghum.	N. L. BHALE	822
Heterosis for forage yield, its components and quality characters in sorghum.	M. U. KUKADIA and D. L. SINGHANIA	827
A new male-sterility system in pearl-millet.	R. APPADURAI, T. S. RAVEENDRAN and C. NAGARAJAN ..	832
Response of chickpea to phosphorus and foliar application of zinc and sulphuric acid.	GOVERDHAN SINGH and M. R. BAJPAI	835
Effect of irrigations scheduled at different stages of growth on seed production of oat.	N. P. SHUKLA, S. B. HUKKERI and MENHI LAL	837
Varietal reaction of wheat to herbicides.	JITENDRA PANDEY and V. S. MANI	841
Molybdenum in soil and plant samples of Agra district.	S. R. VERMA, V. S. MEHTA and VINAY SINGH	845
Effect of soil temperature on seedling emergence in sorghum.	G. L. WILSON, P. S. RAJU and J. M. PEACOCK	848
Effect of pesticides and fertilizers on the population of whitefly and incidence of yellow-mosaic virus in greengram.	B. R. YEIN and HARCHARAN SINGH	852
Note on the manifestation of heterosis in sorghum.	M. H. PATEL, K. B. DESAI and M. U. KUKADIA	856
Note on the level of self-incompatibility in some commercially grown varieties of rapeseed.	P. C. DOLOI and B. RAI ..	858
Note on factor analysis in linseed.	S. N. GOYAL, B. M. ASAWA, B. S. TIKKA and S. N. JAIMINI ..	860
Note on the relationship between genetic divergence and phenotypic stability in pigeonpea.	JAG SHORAN	862
Note on divergence in relation to heterosis in upland cotton.	R. C. PRASAD and J. A. SIDDIQUI	864
Note on genetic basis of weak necrosis in intervarietal crosses of wheat.	O. P. SRIVASTAVA	865
Note on genetic variability for traits related with primary and recovery resistance to shootfly in sorghum.	S. T. BORIKAR, R. D. CHUNDURWAR and P. R. CHOPDE ..	867

Note on the use of irrigation water and yield of transplanted rice in relation to timing of last irrigation.	B. S. SANDHU, K. L. KHERA and BALDEV SINGH	870
Note on the effect of subsoil sodicity on the water use by irrigated wheat.	C. L. ACHARYA, S. S. SANDHU and I. P. ABROL	872
Note on the response of rainfed Indian mustard grown on aridisols to nitrogen and phosphorus.	B. P. SINGH and O. P. DHANKHAR	874
Note on the effect of cobalt on the yield of legumes and their ability to fix nitrogen.	D. V. YADAV and S. S. KHANNA	876
Note on the effect of inoculum levels of *Sclerotium rolfsii* Sacc. on seedling mortality in chickpea.	S. N. GURHA and R. A. SINGH ..	878
Note on the estimation of loss in yield of kodo-millet caused by the attack of shootfly.	R. K. PATEL and R. R. RAWAT	880
Note on a new record of leopard moth, *Zeuzera multistrigata* Moore (Lepidoptera : Cossidae), on cherry.	S. P. BHARDWAJ	881
Note on the efficacy of some new insecticides against the rice grasshopper, *Hieroglyphus banian* Fabricius, infesting sorghum.	O. P. SINGH, K. BUDHRAJA, U. S. MISRA and S. V. DHAMDHERE	882
Book Reviews	141, 269, 348, 414, 482, 623, 709, 799, 884
